

Jira Portfolio

December 2015

Jira Portfolio purpose

*“JIRA Portfolio provides a **single, accurate view for planning and managing** initiatives across **multiple teams and projects** in JIRA. [allows] Automatic scheduling, capacity planning, and the power to react and change in real time”*

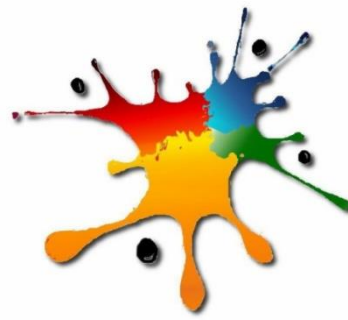

- ✓ Portfolio is very good and rich Agile project management tool.
- ✗ Is NOT a Portfolio Management tool, in terms of costs, budget, revenues, profits, billing, employees hours reporting, etc.

Major capabilities

- ✔ Integrated management and view between **Projects, Releases, Versions and Milestones.**
- ✔ Capacity planning
- ✔ Top-down and bottom-up planning.
- ✔ Multiple Products management (streams).
- ✔ Roadmap management.
- ✔ Teams, Employees, Employee skills.
- ✔ Stages (for example: analysis, design, coding, testing, deployment)
- ✔ Release can contains/be related to several versions.
- ✔ Outstanding reports and dashboard !
- ☹ “What if” capabilities

Integration with Jira and Jira Agile

Project and Product
strategy

Jira Portfolio
